

Engineering the Future, Securing the Present & Simplifying Business Operations

In a rapidly evolving digital era, businesses require more than just technology; they demand an integrated approach that fuses the brilliance of computer systems design with the precision of electronic manufacturing. At Cherokee United Services (CUS), we understand this intricate blend. Our expertise stretches across engineering solutions, tailored administrative management, and steadfast security systems, all backed by state-of-the-art warehousing and a portfolio of diverse professional, scientific, and technical services. Journey with us as we streamline your operations, fortify your security, and shape the innovations of tomorrow.

Complex Projects Made Easy

Projects of all sizes become outstanding success stories with CUS' unique capabilities.

IT Engineering Services

- Azure & AWS implementation, configuration & operations
- Enterprise cybersecurity support
- Network/application support

Data Utilization & Advance Analytics Capabilities

- Data analytics & LCM
- Enterprise search implementation
- Natural language processing/text analytics
- Optimization/prescriptive analytics
- Predictive modeling

Application Modernization Capabilities

- Software development & maintenance
- Testing & quality assurance
- Traditional & mobile computing support

Geospatial, GIS & Remote Sensing Capabilities

- Comprehensive geospatial program management
- Geospatial data analytics & GIS Support
- Image processing

Information Technology Infrastructure Capabilities

- Critical infrastructure protection & continuity of operations
- Data center, network, endpoint, applications & data protections
- Security framework – concept of operations, governance, training & QC
- Security operations – processes, skilled staff & best-of-breed technologies

Program Professional Services Capabilities

- Business process re-engineering
- Call center/help desk operation
- Program & project management
- Warehouse & logistics support

Scientific & Research Capabilities

- Applied & basic research
- Data analysis & stewardship
- Scientific-software development

Meet Your Small Business Goals

CUS is eligible to receive sole source contracts from the federal government according to FAR 13 CFR 124.506. A tribal owned 8(a) may receive a sole source contract up to \$25 million and for DOD \$100 million, and with proper justification, unlimited dollar amounts.

Journey with us as we streamline your operations, fortify your security, and shape the innovations of tomorrow.

Our Promise

For your mission, CUS finds the smartest way forward with a focus on five key principles:

- A reduction in cost to operate
- A long-term strategy & usefulness
- An improvement in delivery of business
- Immediate, short-term benefits
- Strategies are simple, secure & supportable

Building a Better Tomorrow

Cherokee United Services is part of Cherokee Federal, the federal contracting division of Cherokee Nation Businesses — the economic engine of Cherokee Nation, the largest Native American tribe in the U.S. One hundred percent of the company's profits support future business investments and the well-being of the tribe's citizens through health care, education and job creation, ensuring better lives for Cherokees today and tomorrow.
