

Tyrula

INNOVATIVE HEALTHCARE IT SOLUTIONS

Tyrula LLC is an 8(a) certified, minority- and woman-owned small business with over 20 years of IT expertise, specializing in the healthcare sector.

We deliver innovative, human-centered IT solutions using advanced technologies, tackling complex challenges, and consistently exceeding client expectations. As a products and consulting company, we design, sell, and maintain cutting-edge healthcare IT solutions for both federal and commercial clients.

Food and Drug Administration FDA-CDER AOIS

Contract & CPARS: 75F40122F19003; Exceptional CPARS

Through a \$50 million BPA, Tyrula uses agile principals to design and transition the FDA's Center for Drug Evaluation and Research to a new, cloud-based single solution web-portal for all non-financial enterprise-wide administrative management operations across all their offices. It helps coordinate all human resources, recruiting and non-recruiting actions. Real-time dashboards and system views allow for status updates, easy navigation, tracking, and report generation. The system integrates and coordinates with other federal systems and vendors. It produces high-quality technical documentation for diverse audience communicating complex policies.

American College Health Association

Designed, developed, and maintains the Data Hub on behalf of the American College Health Association. The interactive web-based portal accommodates 800+ users with hundreds of millions of records that enables higher learning institutions to access and publish health-related data across the network. The data is collected cleaned and uploaded from various sources using corporative agreements. We are responsible for security, maintenance, modernization, training and documentation of the solution.

CMS No Surprises UX support

CPARS: 75FCMC23C0041; Exceptional CPARS

Implementing No Surprises Act and Transparency Legislation with Human-Centered Design Research and Recommendations to CMS to help evaluate technical applications and processes to deliver a better customer experience and engagement. UX research and design work in collaboration in a multi-contractor environment using Agile principals.

DOI PROJECT MANAGEMENT OFFICE SERVICES & SUPPORT (PMOSS) and INFORMATION TECHNOLOGY SUPPORT SERVICES ITSS IDIQ

CPARS: 140A1624D0037; 140D0424D0008 : Exceptional CPARS

Awarded majority of TO on PMOSS and ITSS IDIQs. Providing IT Support Services to the Bureau of Indian Affairs to strengthen infrastructure through application, cybersecurity, and user support. Delivering Program Management to the Office of Hearings and Appeals to streamline case management. Maintaining Salesforce CRM and AWS Amazon Connect for the Bureau of Trust Funds Administration to improve beneficiary services for over 200,000 annual beneficiary interactions.
